

WORLDWIDE
CRYOSIPPING FOR IVF

ARK CRYO company respects every single customer and appreciates any request for the shipping. The main goal of the company is to handle your samples in the safest way from door to door. Due to our extensive experience with biomaterial transportation in more than 80 countries, we are experts in transporting frozen eggs (oocytes), sperm, and embryos, as well as medical records, documents, and all manner of laboratory specimens. Our seamless coordination with the origin and destination clinics makes your experience trouble-free.
